When did you participate?

You should be actively engaged in the VoiceThread group and you are required to participate over at least three days. Briefly describe how you participated on each day listed below. This could be as simple as, "I provided critique for three of my peers. I also responded to two questions about my draft." If you didn't participate on one of the days simply put, "Did not participate."

Day 1) I gave some descriptions of what people could do better.
Day 2) I gave some more descriptions
Day 3) I responded to those who gave me feedback

How did it help?

Explain what feedback you got from your peers. Also explain what you changed about your project after getting feedback from peers or others.

Well I got feedback that I needed to create actual objects for the assignment (I was shown that I created invalid logos). So I created actual objects instead and fixed my coloring a little bit to reflect my audience of younger men so black is the main color with highlights of brighter colors to peak interest and imagination. I also will be making sure strokes are of the same weight and they are even. The abstract ideas are gone and it is clear that the icons are separate. I also went and added some more orange in other places to make sure it is seen more. Lastly, I tried to fix that cord so it looked a little more symmetrical with the other icons. Some things I chose not to fix such as making some things rounded rectangles and some other things sharp rectangles. I did this because it creates the contrast of

the look. Most computer screens will have rounded edges but then the screen itself is completely square so that is my reasoning for that. I also decided to keep the line in the middle because it shows that the screen is on but it doesn't need to show what is on the screen. That is a fairly normal representation for computers so I decided to keep that.
